

5th May 2010

Please note that the **Triple-P launch and series of public talks scheduled for Monday 10th and Tuesday 11th May 2011 have unfortunately been deferred** due to uncertainty with regards to the availability of Professor Matt Sanders Triple-P founder.

This uncertainty is caused by flight restrictions due to the current volcanic activity over which we have no control.

Please note the events will be rescheduled and we will inform you of the dates and venues as soon as possible.

Rgds,

Conor Owens
Project Director
Triple P Longford/Westmeath
